Dear Prime Minister of Barbados (Ms. Mia Mottley),

RE: The land tax law of Barbados is a mischief that must be stopped

I hope this letter finds you well.

I write to you as an elder citizen of this country. More importantly, I write to you as an ambassador of my King, Yeshua Hamashiach, whom Christians know as Jesus Christ. I am [not a member of any Christian organization](#); rather, I am a citizen of the Kingdom that will soon come and be ruled by the stated King. If you have the time, I encourage you to visit my [government webpage](#) and review the information regarding my King and how He sees government and its mischief on citizens' land. Much is shared there that is rarely discussed. [Go Here and see links under related topics](#). Please take your time and consider it carefully.

Before addressing my main concern, I want you to know that you are loved by my King. His love for you is greater than you can imagine. He knows your struggles, understands your burdens, and holds your cares close to His heart. This message is written because of that love.

You may dislike me for raising this issue or for how it reflects upon your government, but none of that will matter on the day when you stand before my King in judgment. The decisions you make today will have consequences that will extend for an ETERNITY. Each decision we make will be weighed on the day of His judgment.

The land tax law and how it is applied make it a crime. In fact, it is far from law and not called such, but rather it is called mischief. In the great book, it is written.

Ps 119:150 They draw nigh that **follow after mischief: they are far from thy law.**"

I assume you have already reviewed the points outlined on my webpage, including the video from Florida. If not, I encourage you to watch it. In that presentation, the governor describes [land taxation as one of the worst forms of taxation](#).

I write to tell you it is a situation in Barbados that is causing us to roast the pig by burning down our own house. Our parents worked day and night to give us the sons and daughters, something to build on, and now the "criminal" government is stealing the land. The government had no hand in working to buy and own our land. It must stop. I outline my points again here from the webpage in this letter. For the sake of your eternal soul, I implore you to start to make the RIGHT decisions in this matter.

**This mischief (criminal "tax" law) does not end here by just removing it.**

1. Due to their inability to pay towards this mischief, business and family land was taken away (stolen) by the criminals that run the government.

2. If a government does a criminal act, they are called criminals/sinners in God's eyes.

3. By the law of God, to stop being a criminal/sinner, you must first repent to God of this sin, then apologize to the victims, and lastly move to reverse what you have done. Return the stolen land (including what people had to pay over the years). If you say sorry but do not put in place a way to pay back what you stole from the victims, in God's eyes the sin is not forgiven. You are still a criminal.

My earthly father and grandfather worked day and night to purchase and develop the land that the Lord blessed our family with. They received no assistance from the government in acquiring it, and yet governments now act as though they possess a rightful claim to it because of an unjust payment that is required each year.

Criminals often commit their deeds under the cover of darkness. Political criminals commit theirs openly, in broad daylight, while calling it law (mischief).

I have done my duty by warning you.

The responsibility now rests with you. The choices you make today will help determine whether our nation moves toward justice or continues down a path that harms its own people. I pray that you will have the wisdom and courage to choose what is right.

Respectfully,

Trevor Sealy (Bajan Eagle)

Citizen of Barbados and Ambassador to the King Yeshua Hamashiach.
