August 31, 2026

Dear Senior Management Representatives of the BRA,

RE: The land tax law of Barbados is [mischief](#) that must be stopped #2

This letter is sent to clarify what was said to you in my last correspondence.

In answer to your question as to how many people are in the association called the Home & Business Landowners (B'dos) Association, I said, "More than one." My updated answer is: "More than one, plus our guide, Yeshua HaMashiach."

What do I want for myself, or what is my request? I am 63 years old; I have gotten out of life what I need. I am preparing for my next life. What I do now is for my children and grandchildren, and for my fellow citizens' children and grandchildren through this association. I do not want people billing my children, or your children, for what the family already owns.

REMINDER: Our land only grows grass, and it costs the country nothing.

LIST OF REQUIREMENTS FROM THE LANDOWNERS' ASSOCIATION

1. We want members of our association to be excused from your yearly land tax bills (mischief/sin already explained).
2. We want the UNLAWFUL arrears accumulated over the years to be cleared from our records (money gained by mischief).
3. Cease and desist from the taking of land/property due to unlawful arrears not being paid.
4. **IMPORTANT:** We do not want to be part of a system that takes land from our neighbours and fellow citizens. Under God, we do not want to be part of this practice that has gone on for so long.
5. Where possible, money and land wrongfully taken should be returned to the rightful owners.

These are the main requirements for now. Like the family in Kingsland, I have a number of new members who are facing a similar plight while dealing with the legal process and attorneys. It is breaking my heart to read these stories.

Our base of law is the Torah. On Saturday, I did a 45-minute video to explain it in relation to the coming law called Noahide, which I believe is to be implemented shortly for this world. [Go here:](#)

People in this world plan their lives for five, ten, maybe fifty years, and they stop there. Why? They either do not believe in God, or they lack understanding. I plan my life for eternity. I follow the law of Torah, by which I believe my eternity will be judged.

I wish you and the team the very best, and I look forward to your reply to our association (and the world).

Respectfully,

Trevor Sealy (Bajan Eagle)

Citizen of Barbados and Ambassador to the King Yeshua Hamashiach

Founder and President of the [Home & Business Landowners \(B'dos\) Association](#)
